I am an enthusiastic learner and a passionate worker. I presently represent myself as a graduate student of B. Sc. (Hons) Computer Science from Herald College Kathmandu. The technological aspects of the IT fields are mine primary aspects of passions and learning new skills, thus gaining valuable information/experiences are what motivates me. I am deeply passionate about gaining new professional experiences of working in different sectors of IT. I prioritize punctuality, hard work and most importantly the skills required to be a part of a working team to contribute my knowledge, ideas and manpower to be a part of something big.

My convictions are to satisfy associated organization with satisfactory works relegated to me. I may not have all the necessary answers and abilities, but I can promise you that even on the off chance that I don't have the foggiest idea about the answers to any assigned tasks for myself, I guarantee you, I will conduct sessions of research and critical thinking to find respectable amount of appropriate solutions, as I have critical research skills at my disposal.
